Iso Life 2020

I know isolation can be quite a stress
but being with family is just the best!
We've had our good times, we've had our bad
But because of isolation everyone's going mad!
Truth is, this pandemic is a lesson to appreciate
So let's stop this calamity for there is no time to wait!
Stay home and stay safe!
Now that we know the reason for isolation
Let's get together to save the entire nation!
