

Ghost of the forest.

I live with my mum and siblings,
She teaches us everything we need to know.

I look cute and cuddly,

Like a ball of fluff

I don't stay like that for long.

Small head with strong jaws,

emerald green eyes.

By the age of two

I live on my own.

We love the water,

Hot and humid forests.

Were happy on the ground,

But we eat up high.

It is also where I like to rest.

Hide and seek is my favorite game,

You won't hear me coming

Until it is too late.

I'm always hungry when you're asleep.

I blend in with the shadow,

You won't see me coming.

I'm the ghost of the forest

My relatives and I are losing our homes.

Man hunts me for my fur.

You are my predator.
