

## The creepy doll By William Francis

Once upon a time there was a family who lived in a beautiful home. On Kate's birthday her mum gave her a beautiful doll. Kate really loved the gift as it was her favourite toy. So when it was her bedtime, Kate decided to put the doll on the shelf in her bedroom. She got changed and went to bed.

Suddenly, Kate woke up to a strange noise. She looked around and was a bit confused as she could not see her doll. She decided to search for her doll. When she entered the living room, she saw the doll on the sofa and the TV was turned on. She couldn't understand why the doll was there but she then decided to go back to bed with the doll.

One evening, Kate was getting ready for bed so she went to her dressing table to comb her hair while looking at the mirror. Suddenly, she saw a reflection of her doll moving her head. Her body shivered and got scared. Then she thought that it could be her imagination, so she went to bed with the lights on.

During the night, as it was a bit cold, she felt her blanket moving away and when she tried to pull it up, she was shocked to see a figure who looked like her doll, pulling the blanket. With fear, she screamed and quickly got off the bed and ran into her parent's room. Kate told the parents of what happened and they tried to comfort her that it was just a nightmare. So they went to check the room and it was pretty normal. But that night, she did not want to stay in her bedroom. So she slept in her parent's room.

The next morning, her mum was busy preparing breakfast in the kitchen, she noticed some items were misplaced and missing from her pantry. But she didn't worry and thought it was probably Kate..

The following night, Kate woke up again by another weird noise. She noticed the doll was not there again. She became very suspicious but she decided once again to look for the doll. When Kate approached the door, she could hear a girl laughing. She also heard splashing noises coming from the bathroom and when she opened the door, she saw the doll in the bathtub with lots of water and bubbles. She was upset and thought that her

brother was playing tricks on her. She went to see her parents and told them about what just happened. But her brother denied doing anything wrong. Her parents were not too happy but because it was late, they all decided to go back to bed and deal with his punishment the next day.

In the morning, her parents had a chat with her brother and asked him to stop scaring Kate or play any tricks on her. But he still denied doing anything wrong.

On the same day, Kate woke up as she heard loud screaming noises. Kate ran and saw her mum shocked and the kitchen was in a big mess. Kate was really confused about what happened and so was the whole family. Her mum was not happy with the kids.

The following night, Kate woke up again when she heard a big splash from the backyard. She stood up quickly and rushed to the window to look outside. To her great astonishment, she saw her doll in the pool and she decided to rush into her brother's bedroom to see if he was there. When she opened the bedroom door, she saw him in a

deep sleep and she quickly realized that something was wrong. She got scared as she realised that the doll was behind all these creepy things. She quickly rushed to her parent's bedroom and told them that the doll was a ghost. Her parents were confused but they decided to follow her outside. They pulled out the doll from the pool and put it in a sealed box and went back to bed.

The next morning, they were surprised to see the box opened and the doll gone. They looked everywhere for the doll and Kate finally found it on the shelf in her bedroom. She was so scared that she left the room screaming, but the parents rushed to her room and saw the doll too. They thought that the doll was possessed by an evil spirit and decided to drop it to a nearby Church. Her parents spoke to the priest about what had happened to them and the priest decided to keep the doll in his possession. The family was so relieved and went back home to their normal life.
